Slyva Crescent Hotel — Booking Analysis

1. Which country do most travellers come from?

The top 5 countries by number of bookings are:

1. Portugal — 48,483
2. United Kingdom — 12,119
3. France — 10,401
4. Spain — 8,560
5. Germany — 7,285

2. Who has the most ADR? How much?

Daniel Walter, City Hotel — **\$5,400.00** (arrival date: 25 March 2016). This is a significant outlier compared to the rest of the dataset, where rates are typically well under \$400.

3. What is the mean of the total ADR?

\$101.83

4. What is the average number of nights spent?

3.43 nights

5. Who has booked the hotel with the most children and babies?

There is a tie at the top — two bookings each with 10 children:

- Jamie Ramirez, Resort Hotel
- Nicholas Parker

6. How does cancellation behavior differ between repeat guests and new guests?

Repeat guests cancel far less often than new guests, suggesting prior experience with the hotel correlates with follow-through on bookings.

7. What are the seasonal trends in booking volume?

August is the busiest month for arrivals, with demand tapering off toward the winter months — pointing to a clear summer peak.

8. How does lead time (booking-to-arrival gap) affect cancellation likelihood?

Cancellation likelihood rises steadily the further in advance a booking is made — bookings made within a week of arrival rarely cancel, while bookings made more than a year in advance cancel the majority of the time.
